

Valued Customer,

Thank you for your interest in Panoramic's products and your recent inquiry regarding Panoramic's kosher certification status. Although Panoramic is committed to producing the highest quality packaging products and presently holds both ISO 9001:2008 and AIB International quality certificates, Panoramic is not currently recognized as a kosher certified producer of food contact packaging. However, because Panoramic partners with a number of material suppliers that maintain kosher certification each respective supplier's Letter of Kosher Certification is available for examination and can be forwarded upon request.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Adam Holznecht", with a long horizontal line extending to the right.

Adam Holznecht
Quality Assurance Manager
