FAQs

FAQ's

Do you take credit cards?

Panoramic does accept credit cards with pre-approval and a 3% upcharge. We do not sell directly to individual consumers. We are a business-to-business company selling in truckload quantities to processors and other food service companies.

What are the minimum order quantity and lead time?

Many products are available from stock inventory. Minimum order size and lead time for items not in stock vary depending on the tooling used to manufacture.

How do I find a distributor in my area?

Our Sales team will work with you to find a distributor or make arrangements to work directly with your company. Fill out the inquiry form for a sales representative to contact you.

Can PETE products be used for hot foods?

PETE is not recommended for hot food or microwave reheating. This material can withstand temperatures to 145°F and works well in ambient, refrigerated, or frozen environments.

What do I do if the product I'm looking for is not on the website?

Panoramic has tooling for many more packages and specializes in the development and commercialization of thermoformed PETE products. Fill out the inquiry form for a sales representative to contact you.
